

IMPORTANT SAFETY INSTRUCTIONS

CAUTION: RISK OF ELECTRIC SHOCK. DO NOT OPEN!

THE LIGHTNING FLASH WITH AN ARROWHEAD SYMBOL, WITHIN AN EQUILATERAL TRIANGLE, IS INTENDED TO ALERT THE USER TO THE PRESENCE OF UNINSULATED "DANGEROUS VOLTAGE" WITHIN THE PRODUCT'S ENCLOSURE THAT MAY BE OF SUFFICIENT MAGNITUDE TO CONSTITUTE A RISK OF ELECTRIC SHOCK TO PERSONS.

THE EXCLAMATION POINT WITHIN AN EQUILATERAL TRIANGLE IS INTENDED TO ALERT THE USER TO THE PRESENCE OF IMPORTANT OPERATING AND MAINTENANCE (SERVICING) INSTRUCTIONS IN THIS SAFETY GUIDE.

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN, MOISTURE OR FIRE!

WARNING! This product contains magnetic material. Contact your physician if you have questions on whether this might affect the operation of your implantable medical device.

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
- Clean the product only with a soft and dry fabric. Never use liquid cleaning products, as this may damage the products cosmetic surfaces.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug the apparatus during lightning storms or when unused for long periods of time.
- Avoid placing the product in a location under direct sunlight or near any appliance that generates UV (Ultra Violet) light, as this may change the product surface finishing and cause a change in color.
- Audio vibrations created by the product may cause other objects to move, ensure that loose objects are not at risk of falling onto the product or persons and cause personal or object damage.
- To prevent possible hearing damage, do not listen at high volume levels for long periods.
- Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- **CAUTION:** These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
- **WARNING:** Only use attachments/accessories specified or provided by the manufacturer (such as the exclusive supply adapter, battery, etc.)

PRODUCTS THAT ARE INTENDED FOR INDOOR USE

The house symbol represents that this product has been designed for indoor use only.

FCC Statement

- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

- This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment must be installed and operated in accordance with provided instructions and the antenna (s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION! Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Canada Statement

- This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:
 - (1) this device may not cause interference, and
 - (2) this device must accept any interference, including interference that may cause undesired operation of the device.
- The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.
- This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

CE Statement

Hereby, Manufacturer (MUSIC LIFE LTD), declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

PRODUCTS WHICH INCLUDE OR USE BATTERIES

- Replaceable batteries should be replaced with same type and size. Never mix battery types or Brands as this will cause battery leakage and may cause danger of explosion.
- For products with built-in batteries, removal is not authorized by the user. If for any reason it becomes necessary to replace the built-in battery, the procedure must be done by an authorized service center.
- Do not leave the product charging for prolonged periods of time when not in use.
- Explosion Hazard. Do not dispose of the product which has batteries inside.
- Do not use any charger other than the official one supplied with your product. If an additional or replacement charger is required, please contact a sales center or purchase directly from Jarre Technologies.
- The batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

EU Battery Directive 2006/66/EC

The New Battery Directive "2006/66/EC" on "Battery and Accumulator Replacing Directive" entered into force on the 26th of September 2008. The directive applies to all types of batteries and accumulators (AAA, AA, C, D, Button Cells, Lead Acid, Lithium-Ion and other Chargeable Battery Types) including those permanently installed inside of appliances except for military, medical and power tool applications.

Instructions on Recycling and Disposal of Products with Batteries

For products that have a built-in non-serviceable chargeable battery, removal may not be possible by the user. In this case, recycling or recovery centers are responsible for handling the removal and disposal of the products built-in battery.

In the (EU) European Union and other countries, it is illegal to dispose of any battery along with household trash. It is your responsibility to insure proper recycling and recovery of unused / unwanted batteries. All Batteries must be disposed in an environmentally friendly manner. Contact your local waste-management / collection authorities for more information regarding the appropriate method for disposing of used batteries in your area.

WARNING: Danger of Explosion if battery is incorrectly replaced or the battery is damaged. To reduce the risk of fire or personal burns, do not disassemble, alter, puncture, crush, short circuit, expose to temperatures above 60° Celsius, (140° Fahrenheit). Do not dispose into Fire or Water.

This symbol printed on products and packaging represents the product contains batteries and must not be discarded as domestic waste, and should be delivered to an appropriate collection facility for recycling.

RoHS / REACH / WEEE COMPLIANCE STATEMENT

Jarre Technologies is committed to providing its customers with safe and environmentally friendly products that are compliant with the European Union RoHS Directive (Restriction of Hazardous Substances), REACH Regulation (Registration, Evaluation, Authorization and Restriction of Chemicals), the WEEE Directive (Waste Electrical and Electronic Equipment) and the Battery Directive (on batteries and accumulators and waste batteries and accumulators).

REACH 1907/2006/EC

This Directive is the European Community Regulation on chemicals and their safe use. This legislation deals with the Registration, Evaluation, Authorization and restriction of Chemical substances. The law entered into force on June 1, 2007. REACH obligates manufacturers to ensure specified chemical usage is registered with the European Chemicals Agency (ECHA) in Helsinki, Finland. Registration includes supplying data such as chemical types and uses, volumes per annum and test data results.

As of April 2016, the ECHA had identified 168 "candidate" Substances of Very High Concern (SVHC). Based on our own internal analyses, vendor supplied analyses, and/or material certifications of the raw materials used in the manufacture of Jarre Technologies products, we declare that all products, and their packaging, do not contain any of these SVHCs in concentration above 0.1%. (A full list of banned substances is available at this link: <http://echa.europa.eu/web/guest/candidate-list-table>)

RoHS II 2011/65/EU

The European Union has established requirements for the Restriction of Hazardous Substances in all Electrical and Electronic Equipment (EEE).

Certification of Compliance

Jarre Technologies certifies that to its knowledge all of its products conform to the requirements of the European Union's Restriction on Use of Hazardous Substances in EEE RoHS II Directive, 2011/65/EU

Declaration of Conformity (DoC)

To comply with RoHS II, all CE marked products require a Declaration of Conformity (DoC) and that a technical file be made available upon request. Jarre Technologies will continue to make available part-specific Certificates of Compliance demonstrating compliance to the banned substances of RoHS II.

Based on our own internal analyses, vendor supplied analyses, and/or material certifications of the raw materials used in the manufacture of Jarre Technologies products, we declare that all products currently comply with and conform to RoHS regulations.

WEEE 2012/19/EU For European Customers

Jarre Technologies complies with Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE).

Waste Electrical and Electronic Equipment Information

This product has required the extraction and use of natural resources for its production. It may contain hazardous substances that could impact health and the environment, if not properly disposed. In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems for product disposal. Those systems will reuse or recycle most of the materials of the product you are disposing in a sound way.

If you need more information on the collection, reuse and recycling systems, please contact your local or regional waste administration. You may also contact your supplier for more information on the environmental performances of this product.

The crossed out wheeled bin symbol informs you that the product should not be disposed of along with domestic waste and should be delivered to an appropriate collection facility for recycling.

Hereby, MUSIC LIFE Ltd. (JARRE TECHNOLOGIES), declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The declaration of conformity may be consulted at www.jarre.com/support
